APPLICATION FOR RESIDENTIAL ZONING PERMIT

Description of work being performed: _____

If specific requirements are not outlined in other documentation, plans must be drawn to scale with dimensions, on a mortgage survey at a minimum. Additional information may be required, including a property survey.

Fence or Patio: Show all structures and driveway on the property.
 Show driveway location of neighboring property.
 Indicate exact location, height, style and material of fence to be installed.

Driveway: Show all structures, and existing and proposed driveway on the property.
 Supply information found in %Drainage+section of the Grading Plan Checklist document.
 Show driveway approach with proposed width at street (see ROW policy).

Ditch Enclosure/ROW improvements (number of inspections required):
 Enclose Ditch (3) Driveway (3) Landscaping (2) Irrigation (2) Utilities (3)

See ROW Policy for allowable improvements and restrictions.
 Using direction arrows, indicate the flow of drainage from the property and Street.
 ROW must be graded so as to direct water from the street, yard, driveway, etc., into an approved pipe or structure.
 Indicate exact location, type of materials and landscaping to be installed in the ROW.

Three inspections may be required for ROW permits depending on the improvements:
 Prior to construction, during construction/prior to burying, and final.

In addition to the zoning review fee, a Cash Bond is required for any work performed in the Road Right of Way and may be required for parking and stacking in the ROW.

The Street and all Right of Way property will be restored to the same or better condition than it was prior to work being performed. This includes damage or wear from parking, loading/unloading, and stacking.

Application Fee: \$30 Review Fee (determined by City Manager): _____

Performance Bond (determined by City Manager): Amt: _____ Duration: _____

Signature of Applicant _____ Date: _____

Signature of Owner _____ Date: _____
